Professional Summary

Results-driven Web Developer with over 3 years of experience creating responsive, accessible, and user-centric web applications. Skilled in front-end development, UI/UX design integration, and API connectivity using modern JavaScript frameworks. Proven ability to deliver high-quality projects on Fiverr and through independent contracts for local and international clients. Strong communicator and fast learner, currently pursuing a B.Sc. in Software Engineering. Passionate about leveraging AI tools for productivity, optimizing development workflows, and staying ahead of industry trends.

Core Competencies

- Front-End Development (HTML, CSS, JavaScript)
- Responsive & Mobile-First Design
- Cross-Browser Compatibility & Performance Optimization
- Version Control (Git, GitHub)
- API Integration (RESTful APIs, GraphQL basics)
- UI/UX Implementation (Figma Collaboration)
- Web Accessibility (WCAG Standards)
- Agile & Remote Collaboration
- Prompt Engineering & AI-Powered Productivity

Professional Experience

Freelance Web Developer

Fiverr & Independent Contracts | Remote | Jan 2022 – Present

- Built and deployed over 50 responsive websites, landing pages, and portfolios for clients across multiple industries.
- Delivered custom-coded features and reusable components tailored to business needs using React, HTML, CSS, and JavaScript.
- Partnered with startups to boost brand presence, leading to increased customer engagement and conversion.
- Integrated payment systems, contact forms, and third-party APIs to enhance functionality.
- Maintained 5-star ratings and consistent client retention through timely delivery and clear, professional communication.

IT Intern – ICT Department

Nnamdi Azikiwe International Airport, Abuja | Feb 2024 – Sept 2024

- Designed and developed a basic internal tool for resource tracking using HTML, CSS, and JavaScript, improving team workflow efficiency by 30%.
- Supported hardware/software troubleshooting and routine IT operations within the enterprise environment.
- Assisted in system upgrades, documentation, and technical asset management.

Education

Diploma in Computer Science

Federal Polytechnic Nassarawa — Graduated: 2023

Notable Projects
- Modern Business Landing Page – Built with React and Tailwind CSS, featuring form validation and smooth scrolling.
- Interactive Personal Portfolio – Includes animated components, project filters, and GitHub integration.
- Startup Dashboard UI – Reusable UI components using modular CSS and DOM scripting.

Technical Tools & Platforms

- Languages: HTML5, CSS3, JavaScript
- Frameworks: React.js, tailwind CSS
- Tools: Git, GitHub, VS Code, Figma
- APIs: RESTful API Integration
- AI: Prompt Engineering, Automation with AI tools (ChatGPT, etc.)

Availability

- Full-Time Web Development Roles
- Remote or Hybrid Positions
- Freelance Contracts / Project-Based Collaborations
